Subject:	[Update] FERC - capturing energy $$$ savings
Date:	Thursday, June 23, 2016 8:17:46 AM

All - I will not be able to attend this meeting but I have included the Leader number so please hold the meeting without me. Mark - please be the "leader" and use the leader number to start the meeting in my leave. We have a couple of good ideas for moving forward on energy measurements - but - I think the more critical element is IF the lease can be modified to capture these projected savings?
